The conference, jointly organized by ISIC, IIT Delhi, University of Hamburg and University of Toledo, aims to bring together surgeons, engineers, researchers and industry working in the area of biomechanics. The focus will be on finding solution to the biomechanical problems using latest technologies and developments in the field. The conference program will also feature high-profile keynote lectures, workshops, invited talk sessions, oral as well as poster sessions, for students/young professionals and exhibitions.

All are encouraged to submit papers to be considered for presentation.

Conference themes include, but are not limited to:

- Surgical biomechanics
- Computational biomechanics
- Experimental biomechanics
- Rehabilitation biomechanics

Important dates
One page abstract submission: 15 February 2018
Submission of full paper: 25 February 2018

All papers will be peer reviewed. Accepted full-length 4-page papers will appear in the Conference Proceedings

Tentative schedule
Day 1: Clinical orthopedic biomechanics - April 13
Day 2: Clinical spine biomechanics - April 14
Day 3: Design thinking for development of implants & testing - April 15
