

**RESEARCH WORK OF
MASTERS OF PHYSIOTHERAPY (MUSCULOSKELETAL)**

S.No.	Name of the Students	Research Topic
1	Jayant Mudgal	Comparison of stretching techniques for posterior shoulder tightness in overhead athletes
2	Prerna Saini	The reliability of Goniometric Measurement of passive 1st CMC joint
3	Arvind Kumar	Comparison of Grip Strength with Elbow Taping and Elbow Brace in Tennis Elbow Patient
4	Anisha Kak	Effect of different upper extremity positions on grip strength & wheelchair propulsion the SCI patients.
5	Simmi Manaktala	Comparison of effect of standing and sitting hamstring stretch in increasing hamstring flexibility and knee flexion torque
6	Uma Tiwari	Comparison of different types scapular taping technique on pain and function in subacromial impingement syndrome.
7	Vinita Tanwar	Surface electromyography analysis of trapezius and stratus anterior muscle in subjects with Periarthritis of shoulder.
8	Sarika Mathur	To compare EMG analysis during sit to stand activity in B/L Total Knee Arthroplasty Subjects & Control.
9	Akshay Sahni	Comparison between Low Dye taping and calcaneal taping on plantar fasciitis
