

**RESEARCH WORK OF
MASTERS OF PHYSIOTHERAPY (NEUROLOGY)**

| S.No. | Name of the Students | Research Topic |
|--------------|-----------------------------|--|
| 1 | Ramandeep | Comparison between Aquatic and Land based Balance Training group exercises in community based elderly population. |
| 2 | Reena Goel | Effect of Massed practice and Massed Practice with stimulation on Hand function in incomplete Spinal Cord Injury Patients. |
| 3 | Shikha Mahera | Effect of weight bearing exercises on balance in children with CP. |
| 4 | Nishi Gupta | Comparison of Partial Body Weight gait training with conventional gait training on incomplete Spinal Cord Injury patients. |
| 5 | Kanika Govil | Effect of selective gluteus maximums motor unit recruitment by EMG Biofeedback on gait parameters in incomplete SCI. |
| 6 | Om Prakash | Efficacy of integration of Motor Imagery with Physical practice in learning wheelchair mobility skill in SCI paraplegics. |
| 7 | Kanupriya | The comparison of the effects of Arm Ergometer Training vs. Upper Extremity Strength Training on wheel chair propulsion individual with SCI. |
| 8 | Shubhra Narang | Respiratory function in SCI patients -Role of Biofeedback. |
