

Overview

A 2-days workshop on Research Methodology is designed to enable researchers developing their knowledge and skill through an extensive exposure on literature review, formulation of research question, selecting appropriate study design, sample size, data management, statistical methods as well as grant writing.

The course will be taught by a multidisciplinary team from distinguished institutes and government agencies such as AIIMS and DBT. It's a great place for your 'elevator pitch.'

Learning in depth through didactic lectures and hands-on is the aim of the workshop. Resource materials and presentations will be provided to all participants prior to the workshop upon registration..

Number of Seats: 50
